Steve Rinella, P.E.  
Smith & Monroe & Gray Engineers, Inc.  
10700 SW Beaverton Hwy.  
Beaverton, OR 97005

Dear Steve:

Let me bring you up to date on recent events that have delayed my reply to your January 16, 1991 memo. Recent negotiations between Don Merlino, President, Stoneway Concrete Co., and George Wells seem to indicate that the settling pond will indeed be filled as described in the Kline proposal. This reconfiguration of the underground drywell area will allow the proper placement of the deadman.

I will keep you posted as this process, requiring approval by the Washington State Department of Ecology, progresses. Thanks for your help and patience.

Sincerely Yours;

  
Kenneth Rone  
Terminal Manager
